EBOX-AD Wireless Module

EBOX-AD Wireless Module

## Product Introduce

EBOX-AD wireless module applies to L-BUS wireless communication protocol and converts into 0-10V signal through RF wireless communication technology, which is used with LTECH 0-10V LED driver and compatible with all 0-10V series products on the market. Relying on L-BUS wireless technology, removing complex layout and expensive technical cost, making new or retrofit projects installation easier.

## Technical Specs

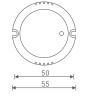

### EBOX-AD Wireless Module

Input Voltage:	5~24Vdc	Dimensions:	L55×W55×H21(mm)
Output:	0-10V	Package Size:	L65×W65×H26(mm)
Wireless Signal:	RF 2.4GHz	Weight(G.W.):	70g
Working Temp.:	-30°C~55°C
