

MULTI VOLTAGE PILOT LEDs

Order code: MK196

These ultra small blue led pilot lights fit everywhere and run from almost any power source.

Features:

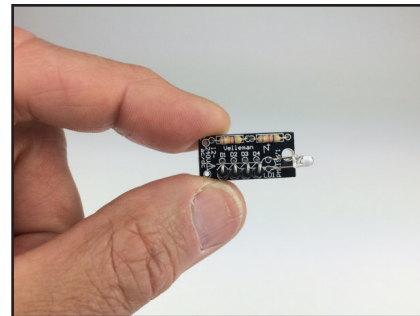

- bright blue 3 mm LED
- small size
- wide voltage range
- low power consumption
- long life
- horizontal or vertical mounting possible

Specifications:

- voltage range*: 12 - 240 VAC / DC
- LED current: 0.5 - 2 mA
- board size: 27 x 13 mm / 1.06 x 0.51"

* resistors must be adapted

Applications: pilot light, staircase lighting, guide lighting, orientation lighting, etc.
